

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working in an atmosphere which supports the highest integrity with empowered collaboration, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious business and providing a safe environment for their employees to work in. In addition, they have implemented various programs in the corporation to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever comments or questions, because they are happy to share and promote this policy with a greater knowledge of their efforts. They are really devoted to improving and preserving the environment. AxleTech has an EHS program which not only protects the natural environment but which even actively protects their workers and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both commercial and military applications. These applications vary from construction equipment to airport ground support. AxleTech specifically designs axles to meet certain application demands. They have over one thousand different axle specs within their present offering. With more than 100+ years of experience and history, AxleTech proudly supplies the most complete solution for any of your axle needs. The business is well known in numerous commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that can be found in the "ISAS" product selection.
