

Meritor Parts

Meritor Parts - The Meritor Business is a leading global dealer founded upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems together with several modules and parts to the original equipment manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the wishes of all their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly feels these top-caliber workers would be able to rapidly adapt to changing environments and exhibit the performance and commitment required to be able to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides all their workers various possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

The supplier development network is particularly located so as to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each and every aspect of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean techniques.
