

Barrel Clamps

Barrel Clamps - A Barrel Clamp is really a mechanical or hydraulic accessory for a lift truck. It could be utilized so as to squeeze the item you need to transfer using the forklift and is often utilized for handling barrels, kegs and paper rolls. A few types of barrel clamp attachments even have a revolving function. Like for instance, the revolving function permits a lift truck operator to be able to slot in a vertically stored paper into the horizontal intake of a printing press.
